

SDP 18000 IQ Level Sensor

Help is needed quickly when there has been a spill in the laundry room or the basement has been flooded by a storm, or when it is time to spring-clean swimming pools or ponds. These situations are the domain of Kärcher's powerful, submersible draining pumps which transfer the water to another location in no time at all. Drainage pumps are equipped with a height-adjustable Level Sensor which reacts immediately to water contact and switches the pump on and off to ensure outstanding reliability.
