

SPP 60 Inox

Regular and targeted watering is necessary to make your garden blossom. That is now child's play with Kärcher's new garden pumps and submersible pressure pumps. These high-performance pumps have enough pressure to run several sprinklers simultaneously. Water pressure is maintained over long distances so that you can make practical use of water from springs, wells, ponds or rain barrels. Installation and operation are really simple.

- Stainless steel pump body
- 20 m lifting rope included 20 m
- Built-in non-return valve
